Data Protection Policy

In order to provide a high quality childcare service and comply with legislation, Apple Trees Club will need to request information from parents about their child and family. Some of this is personal data.

Apple Trees Club takes families' privacy seriously, and, in accordance with the General Data Protection Regulations (GDPR), will process any personal data according to the seven principles below:

1. We have a lawful reason for collecting personal data, and must do it in a fair and transparent way. We will be clear about what data we are collecting and why.
2. We will only use the data for the reason it is initially obtained. This means we will not use a person's data to market a product or service to them that is unconnected with the reasons for which they shared the data with us in the first place.
3. We will not collect any more data than is necessary. We will only collect the data we need to hold in order to do the job for which we have collected the data.
4. We will ensure that the data is accurate, and ask parents to check annually and confirm that the data held is still accurate.
5. We will not keep the data any longer than needed. We must only keep the data for as long as is necessary to complete the tasks it was collected for.
6. We will protect the personal data. We are responsible for ensuring that we process and store the data securely.
7. We will be accountable for the data. This means that we will be able to show how we are complying with the law.
